## Wheelchair Basketball Scholarships

The University of East London has fast become the most successful sports University in London and our sports scholarships are helping pave the way to create world class athletic stars of the future.

Our sports scholars include Olympians, Paralympians, senior internationals and professional sportspeople who represent the University of East London at national and international university competitions.

Successful applicants in addition to daily coaching and training will receive the outstanding University support package which includes:

- Access to the elite athlete academic study policy
- Unlimited Physiotherapy, Sports Massage and Strength and Conditioning , at our onsite performance facility.
- Membership to our university commercial gym SportsDock
- One-to-one Performance Lifestyle support
- Access to a range of Sport Science support; Nutrition, Biomechanics, Psychology and Physiology testing
- Priority access to onsite accommodation, including the option to live with other athletes/teammates.

There are bursaries or tuition fee waivers of up to £6,000 per annum available in these sports (bursaries may be higher for exceptional applicants).

## Academic Support

UEL offers upwards of 380 courses at an undergraduate and postgraduate level with additional PHD opportunities. Our athlete centred program is aimed at putting all scholars in the best possible position to excel in their chosen sport whilst at UEL.

As a Dual Career Accredited university, we have created an environment that has been built to allow athletes to thrive in sport whilst preparing for life post-sport. All courses at the university are available for sport scholars and the Dual Career Support staff work closely with programme leaders to ensure that those competing at a high level can manage the academic workload.

The university has recently adapted to provide a dual delivery teaching model in response to the current pandemic. This enables students to access teaching both remotely and face to face depending on their individual circumstances. If necessary, this will continue into the next academic year.

For further information, support or guidance please contact our High Performance Team:

Will Ashby - High Performance Sport Manager - [w.ashby@uel.ac.uk](mailto:w.ashby@uel.ac.uk)

Alex Kyriacou - Dual Career Support Officer - [a.kyriacou@uel.ac.uk](mailto:a.kyriacou@uel.ac.uk)
