

Sports Wall Padding Player Impact Protection

DYNAMIK introduce a new range of Sports Wall Padding, a cost-effective solution offering exceptional impact resistance to players, particularly in high-contact areas such as behind goals, where court run-off space is restricted. The panels are attached with ease using the adhesive provided and are available as single or multiple panels on a supply only basis, via DYNAMIK direct. For larger projects or our supply and fit service please contact Team DYNAMIK for details.
